PERMANENT MAKEUP

BY CONNIE INC.

## ENHANCE

Permanent makeup is a revolutionary state of the art practice that models, actors and entertainers have chosen to use to enhance their appearance

## SIMPLIFY

Elizabeth Taylor, Princess Diana, Cher, are just a few of the celebrities that have appreciated the aesthetic value.

Along with the savings in time, money and daily frustration you will no longer worry about smudging or smearing, your eyebrows can be shaped to add more expression to your face.

## PERMANENT MAKEUP

Permanent makeup, also known as micropigmentation, is the makeup of the future! Imagine saving 15 minutes a day by not having to apply your regular makeup. Women and men of all ages and backgrounds benefit from permanent makeup which can be applied to eyebrows, eyeliner and lips ( to outline lips and/or give them full colour ).

Permanent makeup benefits anyone with cosmetic related allergies or has an active or athletic lifestyle, need to save time in his or her daily routine. If you wear contact lenses or have vision problems, dexterity problems or arthritis all of which can make cosmetic application difficult, permanent makeup is an alternative.

The art of Micro-pigmentation is also used to camouflage burns, scars, stretch marks, tattoo removal and alopecia or other hair loss. As well it is widely used to help accident or cancer patients by reconstructing areas that have been removed due to surgery such as breast's areola (nipple replacement).

High quality cosmetic pigments are implanted beneath the basal (top) layer of the skin by selecting pigment colour according to skin tone and using the proper techniques the result is a soft natural looking enhancement of your

features or even creating a totally new look.

## COMMON USES

Permanent makeup is a procedure most commonly used on

- eyes for lash enhancement
- eye liner
- eyebrows
- lips, full lip colour liner reshaping and enhancing

*My life is simpler and my natural beauty is enhanced thanks to permanent makeup by Connie.*

YOUR PERSONAL CONSULTATION  
WITH CONNIE BERNARD

*A complete and thorough consultation is required so that I can take the time to understand your needs and determine what type of artistry is required that will enhance your features.*

**During your free personal consultation we will discuss:**

- The technique and process of Permanent Makeup, explaining the entire process from design to aftercare.
- You will see before and after pictures of clients (who have agreed that they can be shown) discussing what look would be right for you.
- Colour and design will be determined with a preview of makeup application to the areas that will be affected.
- Cost and scheduling - all procedure costs include 2 follow up appointments within 3 months of procedure.
- Your concerns and questions will be addressed to ensure you have the full understanding and confidence in your decision.

*\* with 3 bookings I will travel to your hometown and apply your permanent makeup and follow up 1 month later at no extra charge.*

**For your free consultation or for more information please contact Connie in person at Tel: 416-801-3618 or 416-269-5449, or email: [consultation@foreverfaces.ca](mailto:consultation@foreverfaces.ca)**

## FREQUENTLY ASKED QUESTIONS

### Does it hurt?

An anaesthetic is applied topically to freeze the area to reduce any discomfort.

### How safe is it?

All instruments used for procedures are disposable. Safety and

sanitation standards are followed very strictly; anything that touches a client will be disposed of and therefore never used on anyone else.

### How long does it take?

Each procedure will take about 1 – 2 hours.

### What does it cost?

Fees are determined at the free consultation. The costs are based on the required procedure(s) and the client,s wishes.

### How long does it last?

Five years or longer is normal. The darker the colour the longer it will resist fading.

### What happens after the procedure?

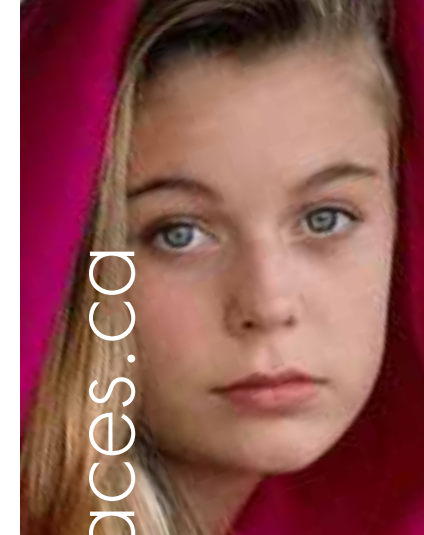

Most people resume normal activities immediately following the procedure, there might be slight swelling for a day or two. We will review aftercare instructions with you before the procedure.
